

4% CHG Skin Cleansing Kit

Reduce Infection Rates

CHG skin cleansing reduces bacteria on the skin prior to surgery. Designed to empower patients to be compliant.

Item#

EA-M5004FB-30

Effective 0-6/01/2023

Case of 30 – \$230.83

Each Kit Contains:

1 – 4% SCRUB CHG 4 oz. Bottle

6 – Disposable (Ultra Soft) polyester blend 12 x 14 washcloths

1 – Waterproof bilingual Directions for Use card (can be taken into shower)

(One Kit can be used for Two Skin Cleanses)

Use 2 ounces and 3 cloths for cleansing the night before surgery and the remaining 2 ounces and 3 cloths for cleansing the morning of surgery.

- CHG kills bacteria & is 'fast-acting' and broad-spectrum efficacy, & 'persistent' (including MRSA), making it an effective 'Antimicrobial Active Ingredient' for skin cleansing prior to procedures.
- The mechanical action of scrubbing with durable cloths with CHG helps to cleanse skin & rinsing removes debris while maintaining a layer of CHG on skin that promotes antimicrobial effects.
- 4% CHG Skin Cleansing Kit includes all the tools that patients need to easily comply with preoperative CHG skin cleansing protocols.
