NOTE: This item is a 'Replacement Item' for the 'Discontinued Apicare PVP Sponge Sticks ITEM # ORF22025S'.

Povidone-Iodine Sponges

Povidone-iodine is a broad-coverage antiseptic that effectively kills bacteria, viruses, and fungi while aiding in wound healing and infection prevention. Dukal offers healthcare professionals a wide range of povidone-iodine products designed to combat microorganisms on the skin and mucous membranes, disinfect target areas, and reduce infection risk.

Povidone-Iodine Sponge Sticks and Winged Sponges

Convenient and ready for immediate use, the sponge sticks are designed to allow clinicians to keep their hands away from the patient prep site to prevent contamination, and the winged sponges are available in both large and small sizes to meet various scrubbing needs.

- Povidone-iodine USP 10% solution
- Pre-saturated sponge
- Used for patient preoperative skin preparation
- Helps to reduce bacteria that potentially can cause skin infection
- Sterile, single-use, easy-to-use foil pouch

Item #	Description	Packaging
909	Povidone-Iodine Paint Sponge Sticks, 8"	2/PK, 10PK/BX, 8BX/CS
910	Povidone-Iodine Scrub Winged Sponges, Large	2/PK, 10PK/BX, 8BX/CS
911	Povidone-Iodine Scrub Sponge Sticks, 8"	2/PK, 10PK/BX, 8BX/CS
912	Povidone-Iodine Scrub Winged Sponges, Small	4/PK, 10PK/BX, 8BX/CS

*Used in various minor procedure kits and trays, including OR surgery trays, wet prep trays, vein ablation kits, and hysteroscopy trays

Note: Non-Sterile Povidone-Iodine can be contaminated by the Burkholderia Cepacia Complex (BCC) Bacteria Species, which contribute to hospital-acquired infections and are antibiotic-resistant. * We have sterilized the Povidone-Iodine and the Sponge Sticks making it easy to drop the Sterile Sponge Sticks onto a sterile operative field.

(*Based on principles and not actual tests. EuroAmerican IP, LLC does not make any claims to statements.)
