STERILE 10% POVIDONE-IODINE USP

ETHYLENE OXIDE STERILIZED PACKETS INSIDE A PEEL POUCH

ITEM#EA-REF886-1 oz-50

(Case of 50)
(1oz Liquid Packet)

- ▶ Easy-to-open sterile peel pouched packets for a sterile operative field.

Note: Non-Sterile Povidone-Iodine can be contaminated by the Burkholderia Cepacia Complex (BCC) Bacteria Species, which contribute to hospital-acquired infections and are antibiotic-resistant. We have sterilized not only the Povidone-Iodine but also its packaging, making it easy to drop the packet of sterile solution onto a sterile operative field.*

- ▶ Helps reduce infection rates.
- ▶ Broad-spectrum efficacy shown against skin pathogens, gram-negative bacteria, gram-positive bacteria, and yeasts*.
- ▶ Single-use foil-laminated Liquid Packets designed to withstand the rigors of Ethylene Oxide Sterilizations.
- ▶ Meets CDC, AORN & APIC Guidelines for Skin AntiSepsis*.

*(*Based on principles and not actual tests. EuroAmerican IP, LLC does not make any claims to statements.)*
