Our Brand Story

Our very first product was truly born out of a personal need. The brand founder, Carroll Rushing, was undergoing treatment for skin cancer and frequently applied hydrogen peroxide to his inflamed skin. But the process was messy and wasteful – liquid dripped and spilled all over and the cotton balls weren't large enough for the job. Mr. Rushing's background as a chemical engineer and inventor got him thinking that there had to be a better way. And so, in 2005, Pharma-C-Wipes™ was born!

John Carroll Rushing

But production of hydrogen peroxide wipes was a tricky undertaking due to the chemical sensitivity to light and difficulty finding a material substrate to properly absorb and wick the liquid into an effective wipe. So, Mr. Rushing reached out to one of his trusted production partners, Kleen Test Products, to fine tune the product development and begin the production. Soon, 70% Isopropyl Alcohol Wipes and Witch Hazel Wipes were added to the Pharma-C-Wipes product line.

In 2017, after a successful, multi-year business relationship, Mr. Rushing asked KTP to take over the Pharma-C-Wipes Brand due to his declining health. Unfortunately, Mr. Rushing has since passed away, but his spirit of innovation lives on with the team at KTP which continues to build the brand and remains committed to providing high quality products. Over the years, hospitals, caregivers and individuals have loved Pharma-C-Wipes and have suggested additional products to address specific health and personal care concerns. The team at KTP responded by expanding the brand's product line to meet these needs and now the brand has evolved to The Pharma-C Company®. But to this day, we remain focused on the original Brand Purpose: to help people care for themselves and the ones they love.

Each product offered, with the exception of Baby Oil Wipes, is manufactured in one of Kleen Test's Wisconsin or Ohio plants with U.S. sourced raw materials. Our baby oil wipes are manufactured in Germany.

First Aid Products

Available for order in Case Pack or Master Pack Quantities

70% Isopropyl Alcohol
Wipes, 175 CT

Case Pack - 6 Units

Item No. 63-10413
